Subject: Application for PEOPLE'S REPUBLIC OF CHINA - GOVERNMENT OF RWANDA SCHOLARSHIPS

Dear Director General,

My name is Uwayo Parfait, a recent graduate of Bulinga TVET School where I studied **Software Development** and earned a national examination score of **82.9%**. I am writing to express my sincere interest in PEOPLE'S REPUBLIC OF CHINA - GOVERNMENT OF RWANDA SCHOLARSHIPS of Rwanda undergraduate scholarship program. I am passionate about engineering and wish to continue my studies in fields such as **Software Engineering**

From a young age, I've been drawn to technology and curious about how systems work, how to code and how things such as robotics works, and how innovation can solve real-world problems. This curiosity led me to choose Software Development, a field that has deepened my understanding of how digital tools can transform lives. My journey has taught me more than just programming; it has strengthened my critical thinking, sharpened my problem-solving skills, and shown me how powerful technology can be when used to serve others.

At Bulinga TVET, I learned by building applications, debugging systems, and collaborating with others to solve technical challenges. These hands-on experiences helped me realize that engineering is not just about machines or software, it's about creating tools that make life better. I've learned to think creatively, work with precision, and stay resilient when facing complex problems.

This scholarship represents more than a chance to study abroad, it is an opportunity to grow, innovate, and give back. I am committed to using the knowledge I gain to support my

community and contribute to Rwanda's development through technology that is both meaningful and inclusive.

Thank you for considering my application. I am ready to embrace the challenges ahead and represent Rwanda with dedication and excellence.

Yours sincerely.

Uwayo parfait
